

TC850DWL Dowelling Machine

Typical Applications

Dowel joints provide increased strength over biscuit joining where durability or weight is of consideration and thus suitable for,

- Furniture Building
- Wooden toys construction
- Wooden feature gates
- Wooden doors and cabinets

Accessories

- 2 x .23", .31" & .39" Drill Bits
- 1 x Dust Bag Adaptor
- 1 x Allen Key (bit locking)
- 1 x Brush Set (spare)
- 1 x Kit Box

Features

Efficient 7Amp Motor

16,500rpm

.23", .31" & .39" Drill Bits

Adjustable Drilling Depth

0° – 90° Fence Adjustment

Rack & Pinion Adjustment

Magnesium Construction

Benefits

Ample power for all wood species

Ensures smooth cutting action for deeper holes

Covers the most common sized dowels for woodworking projects

Allows for use in various lumber sizes

Allows for precise drilling angle adjustment to match the angle of the joint

Ensures a smooth and accurate adjustment of the fence height

For superior strength, lighter weight and durability
